EXPERIENCE

Frontend Developer, Apex Planet   *June 2025 - Present*

Food Order Website

- Developed a fully responsive food ordering interface using HTML5, CSS3, and JavaScript, optimized for both desktop and mobile platforms.
- Engineered core features such as interactive menu browsing, real-time cart updates, and order summary generation with pure JavaScript.

PROJECTS

- **SkyVue - Modern Weather Forecasting Website**   *Feb. 2024 April 2024*

  Web Development   GitHub

  - A beautiful, responsive weather forecasting website built with pure HTML, CSS, and JavaScript. Featuring modern glassmorphism design, smooth animations, and an intuitive user interface to deliver real-time weather updates.
  - Made using: HTML,CSS,JavaScript

- **Vocal-Bid**   *Jan. 2025 - Mar. 2025*

  Web Development   GitHub

  - Developed an AI-powered voice assistant that enables users to participate in live auctions through voice commands over phone or web calls. The system supports hands-free interaction for listing auction items, tracking real-time bids, and placing new bids using a natural language interface.
  - Made using: HTML, CSS, Bootstrap, JavaScript

- **DriveEasy**   *April 2025 - May 2025*

  Web Development   GitHub

  - A premium car rental website built with HTML, CSS, and JavaScript. This project provides a modern, responsive user interface for browsing and viewing available rental cars.
  - Made using: HTML,CSS,JavaScript,Node.js

- **Portfolio Website**   *May 2025 - June 2025*

  Web Development   GitHub

  - Designed and developed a responsive personal portfolio website to showcase projects, achievements, and skills. Implemented smooth scroll navigation, interactive sections (About, Projects, Contact), and integrated social media and GitHub links.
  - Made using: HTML, CSS, JavaScript

TECHNICAL SKILLS

- **Programming**: C, Python
- **Development**: HTML, CSS, JavaScript, Flask, Node
- **Databases**: MySQL, MongoDB

Personal Skills

- Adaptable

- Punctual

- Quick Learner

- Optimistic

Certifications

- Introduction to Python – IBM Career Education, 2023

- RDBMS - IBM Careers, 2024

- Python Foundation Certificate – Infosys, 2025

- Object-Oriented Programming using Python - Infosys, 2025

Positions of Responsibility

- **Organizer**, Technovista Event, CDU   *Jul. 2024 - Aug. 2024*

Achievements

- **Hackathon**, Secured 2nd place in Intercollegiate Hackathon   *2024*
